Do you have a regular veterinarian? _____

How did you hear about our clinic? _____

Has your pet been ill in the past 30 days? _____

Does your pet have any known allergies to vaccines or medications? _____

I, being of legal age and owner of listed animal, have the authority to grant the Florida Keys SPCA and its staff my consent to the provide medical services to the animal listed above. _____(initial)

It is not uncommon for pets to experience some mild side effects after receiving a vaccine. These side effects may include: discomfort and local swelling at the injection site, mild fever, decreased appetite and activity. More serious but less common side effects may occur within minutes to hours after vaccinations. These mat include: Itchy skin (hives), swelling around the face, difficulty breathing, or even collapse. If any of these signs arise, please seek veterinary advice/ treatment for the condition. _____(initial)

I am aware of the potential benefits and risks of vaccinating my pet. I understand that my signature represents my request to have my pet vaccinated and releases the Florida Keys SPCA and its staff and volunteers of any liability. _____(initial)

Please make a check mark in the box of services you would like for your pet

**Please note: All dogs need to be on a non-retractable leash and cats in a secure carrier. The basic exam that your pet will get today is to ensure that they are healthy enough to receive vaccines. If you have any concerns or any problems need to be addressed (ex: skin issues, wound care, ear infections) you would need to schedule an appointment with your regular veterinarian.*

***Requires a \$20 exam fee**
